

Patient Participation Group Interest

Hello!

We are actively encouraging Patients to join our newly 're-vamped' Patient Participation Group.

This group will aim to meet once a quarter and will be an opportunity for us to receive Patients' views about how the Practice is doing and discuss how we can look to take the Practice forward.

Once we establish interest, we will contact individuals to inform them of dates and times.

Alternatively, we're also looking to have an active 'Virtual Patient Participation Group' which means that we'll be able to send the latest information (including our new quarterly newsletter) over email and every now and again ask you a question or two.

If you are interested in joining either our:

Patient Participation Group

Or

Virtual Patient Participation Group

Then please ask the reception team for a quick form to complete and we'll add your contact details to our contact list.
